

## ROADS RESTRAINED FROM RATE INCREASE

Judge Dyer, at Hannibal, Issues Temporary Injunction on Petition by Government, Which Alleges Violation of The Anti-Trust Law.

## PROSECUTION WILL EXPEDITE THE CASE

Western Trunk Line Committee Held Instrument of Unlawful Combine and Conspiracy—Roads Plan to Fight Suit—Middle Western States Affected.

Hannibal, Mo.—Judge David P. Dyer of the United States circuit court for the eastern district of Missouri issued a temporary injunction restraining 25 western railroads from enforcing, effecting or making a general advance in interstate freight rates June 1.

The injunction was granted on a petition filed by the United States government, alleging that the advance in rates was arrived at by the defendants in violation of the Sherman anti-trust act.

The petition was filed in the United States circuit court at St. Louis and presented to Judge Dyer, who is holding court in Hannibal.

The order stated that unless such a restraining order be issued said advances would become effective June 1, 1910, to the grave harm and injury of the people of the said United States.

The petition upon which the injunction was issued was presented to Judge Dyer by Edmund P. Grosvenor of Washington, special assistant to the attorney general of the United States, and Frederick N. Judson of St. Louis, acting in a like capacity.

GEORGE W. WICKERSHAM.

The petition was signed by George W. Wickersham, attorney general; William S. Kenyon, assistant to the attorney general; Frederick N. Judson, Edmund P. Grosvenor, special assistant to the attorney general, and Charles A. Houts, United States attorney.

The injunction declares that the restraining order has been issued upon the statement of the counsel for the government that they would immediately upon the filing of the injunction by the direction of the attorney general file and expedite certificates under the act of February 11, 1903, providing for a speedy determination of the issues in contention.

United States Attorney Houts says the railroads are privileged to come into court at any time with a motion to dissolve the injunction. He stated there was no set time for a hearing, but by the direction of the attorney general the proceedings would be certified to in the circuit court in St. Louis. If the defendants do not come into court with a petition to dissolve the injunction, he averred, the case would come up for a hearing on the first Monday in July before the equity side of the circuit court.

Free of verbiage, the petition is to this effect: That the defendants of all times and are now common carriers of all classes and kinds of freight and commodities, generally carried by a railroad company; that they are continuously engaged in carrying, moving and transporting freight and commodities in the commerce trade and traffic, which is continuously carried on among and between the several states of the United States and the United States and foreign countries; also between the people residing in the United States; that the defendants are the owners and in control of the respective lines of railroads, equipped for carrying on the business of a common carrier and that they are separate, independent and distinct of the lines of railroad operated by the other defendants.

Government Had to Act Quickly. Washington, D. C.—The machinery of the department of justice was worked at breakneck speed to obtain, before the last possible moment when action would be effective, issuance of temporary injunctions by United States District Judge D. P. Dyer, sitting at Hannibal, Mo., restraining 25 railroads composing the western trunk line committee from collecting increased freight rates between Missouri river and Mississippi river points.

The president approved plans, already perfected by Attorney General Wickersham, for contesting these rates, which would have been legal June 1 had their lawfulness not been formally questioned by court intervention. The rates represent 15 to 20 per cent increases on the principal commodities.

The government sets a new precedent in this procedure by itself seeking injunctions without notice against the railroads—the expedient so often resorted to by the railroads themselves to further their own schemes. The general decision to take an aggressive stand was reached by President

Generally speaking, the lines are the only ones for the transportation of freight and passenger traffic for the states of Missouri, Iowa, Minnesota, Kansas, Nebraska, South Dakota, North Dakota, Wyoming and parts of Montana and Michigan, Wisconsin, Illinois, Indiana and Tennessee. They furnish the only means of communication by railroad between the inhabitants of the several states.

Tried to Suppress Competition. The petition states that the railroads intending to monopolize the transportation, traffic, trade and commerce between the different states, "did combine, conspire, confederate and unlawfully agree to organize and become members in the western trunk line committee as a means of suppressing all competition between said defendants, in the said interstate transportation, trade and commerce, being carried out by the defendants, as aforesaid."

Continuing, the petition runs that since the date mentioned the western trunk line committee, unincorporated, with headquarters in Chicago, is the instrument by means of which freight rates have been fixed applicable to all freight within the jurisdiction of the western trunk line committee. That the charges now being imposed are the same by all the defendants and are so made by agreement. The following is the method by which the petition alleges rates are fixed by the western trunk line committee:

"Each of the defendants is a member of the western trunk line committee. There is a freight committee, composed of the freight traffic manager or general freight agents of each of the defendants. This committee meets once every month. Whenever any defendant contemplates a change in any of its rates, rules or regulations, the officers or official representing such defendant on said committee suggests such change to the chairman of the committee, who then docks the same for consideration and discussion at the next meeting of the freight committee."

"At that meeting the matter is brought up for consideration. If all agree the proposed change is made by all the roads, defendants herein. Unless there is unanimous agreement, the suggestion is rejected, and no road adopts the proposed change of rates."

Advance to Be Simultaneous. "The petition alleges there is an agreement between the defendants to the effect that no rates will be advanced or reduced except with the concurrence of the entire body, with a simultaneous advance or reduction by all the others agreed upon at a meeting of the freight committee. Further, it is claimed, by means of membership in the committee all competition between the defendants is suppressed."

The western trunk line committee is said to have succeeded another association of a similar character, the name of which is unknown, but the complainant avers that there are other associations of a similar character to which portions of the United States have been assigned and in which many of the defendants are members.

Part No. 3 of the petition says that in 1909 or early in 1910 the defendants conspired together and determined to make a general advance in commodity rates to prevail throughout the western trunk line territory, using the same as a means to effectuate the advance.

Agreed on New Advancements. The freight committee held a meeting, the date of which is unknown, and the commodity rate named in I. C. C. tariff No. 115, and sometimes called Rogers' tariff No. 1 D, were gone over and considered at the meeting. The conference resulted in an agreement as to new advances to be made. After they had been determined upon, each of the defendants notified the chairman of the western trunk line committee, W. H. Hooper of Chicago, who had printed a schedule of the advances, called supplement No. 2 to freight tariff No. 1 D.

dent Taft and his advisors the latter part of last week. Frederick N. Judson of St. Louis, a close friend of Taft, who served in a similar capacity in the Atchison case during the Roosevelt administration, was selected for special counsel to represent the government. Edmund Grosvenor, an assistant attorney general in the department of justice, was started for St. Louis with a bill against the offending railroads which Mr. Wickersham had hurriedly drawn up. Grosvenor arrived in St. Louis and conferred with Mr. Judson.

Meanwhile Mr. Wickersham received the delegation which had come to Washington on behalf of the middle west shippers advocating the government undertake just such a prosecution. Wickersham heard their arguments blandly sympathized with them, but gave no hint the government already was hot on the trail of the railroads.

The administration acted just as the corporation might have acted in attacking a labor union, by seeking the intervention of the federal court without giving the defendant any warning whatever.

## "QUEER" PLANT IN MISSOURI PRISON

TWO LONG TERM CONVICTS ARE TRAPPED WITH COUNTERFEITING OUTFIT.

## QUARREL LEADS TO RAID

Paraphernalia Was Used in the Penitentiary for Twenty Years and Has Been Handed Down From Prisoner to Prisoner.

Jefferson City, Mo.—A fully equipped counterfeiting plant, in operation at the state penitentiary at Jefferson City for 20 years, was raided by Government Inspector Edward J. McHugh of St. Louis. Molds, fire pots, spurious coins and other paraphernalia were confiscated and two prisoners arrested. Both confessed having made spurious half dollars, quarters and 5-cent pieces.

The plant, Inspector McHugh declares, has been in the penitentiary for 20 years and has been handed down from prisoner to prisoner. The men arrested are Lee J. Jayne, a five-year man from Kansas City, and Joseph Vall, another long-term prisoner from there.

A quarrel between four prisoners occupying the same cell regarding the division of the spoils was responsible for the raid.

The government has applied for warrants charging the prisoners with counterfeiting and will ask Governor Hadley to pardon the two men so the government may be able to convict them on the more serious charge. Jayne was convicted three years ago at Kansas City for forgery and Vall is serving a long term for robbing a freight train. He also was sentenced at Kansas City.

Prisoners to Be Pardoned.

Governor Hadley announced that he will pardon both men in October, when the federal court convenes, that they may be prosecuted.

When Warden Andrea got his information that prisoners were engaged in making spurious coins he placed a watch on the suspected men in hopes of catching them in the act of turning out the coins from the molds. His discovery was made last Thursday, and he immediately wired Inspector McHugh, who lives at No. 5535 Cabanne avenue, in St. Louis.

On arriving at the penitentiary an examination of the cell was made and the revelation that followed surprised McHugh, who has run down many plants, but none like the one he found here, according to his own statement.

Coins Hidden in Beds.

Three molds used by counterfeiters were hidden in the cell occupied by Jayne and Vall. Two sets of these were for 50-cent pieces, one for 25 and the other for 5-cent pieces. A smaller plaster of paris furnace, used for heating the metal, was dug from under the cell floor. This furnace was constructed to permit a receptacle four inches square setting in the center of it. Charcoal was used for fuel.

Hidden in the beds of the prisoners were found eight 50-cent, two 25-cent and two 5-cent pieces. The appearance of the furnace showed it had only been in operation a short while. It is the opinion of Inspector McHugh that the men did not have a change to put any of their coins in circulation.

Were Following Old Custom. It is a custom at the Jefferson City prison to hold a carnival twice a year within the prison walls. One on Christmas Day, when a three days' feast is allowed the long-term men, and the other on the Fourth of July. It was for this latter holiday that Jayne and Vall were preparing.

When the carnival is held concessions are granted to the long-term men, and they have stands on which are various articles for sale. For 20 years the carnivals have been an established custom, and invariably after their celebration counterfeit coins were always found among the prisoners and even prison officials, who patronized the stands, were sometimes victims.

## 16 YEARS OF SKIN DISEASE

"For sixteen long years I have been suffering with a bad case of skin disease. While a child there broke out a red sore on the legs just in back of my knees. It waxed from bad to worse, and at last I saw I had a bad skin disease. I tried many widely known doctors in different cities but to no satisfactory result. The plague bothered me more in warm weather than in winter and being on my leg joints it made it impossible for me to walk, and I was forced to stay indoors in the warmest weather. My hopes of recovery were by this time spent. Sleepless nights and restless days made life an unbearable burden. At last I was advised to try the Cuticura remedies (Cuticura Soap, Ointment and Pills) and I did not need more than a trial to convince me that I was on the road to success this time. I bought two sets of the Cuticura Remedies and after these were gone I was a different man entirely. I am now the happiest man that there is at least one true cure for skin diseases. Leonard A. Committee on Disease in Europe Says Corn Is Not to Blame.

London, May 14.—Dr. Sambon, a member of the Field committee which has been investigating the disease pellagra, telegraphs from Rome that the committee has definitely proved that maize or Indian corn is not the cause of pellagra. The committee finds that the parasite conveyor of the disease is the "simulium repans," a species of biting gnat.

## Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

At the present rate of increase nearly forty-five years must elapse before sufficient hospital accommodations to provide for all the indigent consumptives in the United States will be provided, declares the National Association for the Study and Prevention of Tuberculosis. Although over 7,000 beds in hospitals, sanatoria, camps and wards for tuberculous patients were established last year, there are fully 300,000 indigent consumptives who ought to be placed in such institutions and a total of only 22,720 beds in the entire country. On May 1, 1909, there were 15,244 beds for consumptives and 294 institutions. The annual report of the national association shows an increase of 99 institutions and 7,500 beds.
